## **Coronavirus Update: 21 March 2020**

**Following discussion with stakeholders and our team we are delighted to announce that we have decided to operate **all Public Bus Services as usual** for the foreseeable future.**

**We recognise for many passengers our services are a lifeline, and we are conscious that many Hospital staff rely on them to get to work.**

**We will continue to deep clean the buses every day and take every precaution to stop the spread of Covid-19. We would like to thank all our passengers for their support and wish everyone the best of health during this difficult time.**
